

the reason i purchased xm radio is because the FCC and their threats scared clear Channel so much they let Howard Stern go and he is now off the air here in Orlando. I am an adult and capable of making my own choiced of what to listen to. this is supposed to be a free country but lately it feels like a police state. My life has vastly improved because of xm and the traffic and weather station. why do i feel that the NAB has something monetary to gain by all this? please reject 04-160.
